METHODOLOGY

The top workplaces survey was conducted by [WorkplaceDynamics](#), which reached out to employers with at least 50 employees.

The company contacted more than 800 businesses and surveyed 42 that agreed to participate.

The survey results are broken down in three categories (large, midsize and small) because smaller companies tend to score higher than larger ones.

WorkplaceDynamics ranks the companies based on their employee responses. Companies with 85 or fewer employees must have a 35 percent response rate.

For those with 2,500 or fewer employees, at least 500 employees must be sampled. For those employers with more than 2,500 employees but fewer than 5,000, 20 percent must be surveyed to be included.

For companies with more than 5,000 employees, at least 1,000 surveys must be distributed.
